

Introduction

The Wild Collections List has been put together in order to aid aquarists in their efforts to trace killifish species to collections in the wild. Although information about all collecting efforts will be difficult to obtain, in time, the list will grow until it is close to being complete. References to the literature will be given.

Although it is likely that some fish currently in the hobby have their origins before 1950, the earliest collection date included here, the vast majority of killifish have come to us since that time. In the case of species collected before 1950, it is likely that most of the lethal genes have been eliminated and, although the captive individuals are essentially genetically identical, they may be able to survive for decades in this state. A noted example, *Aphyosemion australe* (Chocolate), is believed to have been in the hobby since 1911, although specimens have been introduced since that time and may have been mixed with the older strain. Research and experimentation will become an important part of the serious breeders' efforts. Accurate records of past and present inbreeding will be useful.

The list will be useful in helping hobbyists keep track of the location data that is often attached to the scientific name. Maintaining the accuracy of this key information will help avoid the production of hybrids and prevent the contamination of the gene pool. Mistakes in the spelling and sequence of location information are frequent and, hopefully, this list will help to avoid the continuation of these inaccuracies. An example would be *Aphyosemion primigenium* GJH 202 = Gabon, Jean Huber (The collector) 202 (Second trip, location 02).

In those cases where the exact collecting time is known for a particular species, the aquarist can begin to plan breeding strategies that reflect knowledge about the amount of inbreeding that has already taken place. Assuming a species has been bred at least once each year will bring one close to the number of generations that inbreeding has taken place. In most cases the initial step when beginning a breeding program will be to

increase the numbers and then use strategies to put some genetic distance among several breeding lines. It would be helpful to work closely with other aquarists in planning these strategies.

Aquarists are encouraged to breed only individuals that carry the same collection code. Crossing populations, even when they carry the same species name, can result in sterile hybrids as shown by Jorgen Scheel in his outstanding work on killifish chromosomes. It may be that different populations carrying the same species name are, in actuality, separate species. It will take many years to sort all of this out. When breeding occurs using two different populations or when the collection code is lost or badly corrupted, the resulting offspring are considered to be an **aquarium strain (AS)** and should be labeled accordingly.

In addition, the list is an effort to recognize the many people who, at considerable risk to themselves, have made the extraordinary effort to make the world's killifishes available to aquarists. Their efforts should never be forgotten. It is hoped that you will find this a convenient way to locate important information in your efforts to manage the genetic diversity of your killifishes.

Through a conscious act of will, we have agreed to be the custodians of the killifishes that have brought us so much enjoyment over the years. Our challenge will be to see them through the difficult decades ahead as more and more killifish habitats are destroyed or threatened. The main thing is to keep true to the task with a certain faith that today's efforts will be rewarded when future generations are able to enjoy a viable planet filled with nature's wonders. Each killifish species is a valuable resource and needs to be given the best care possible. With a great deal of commitment and a little planning this can be accomplished despite the demands of a busy life.

A special thanks goes to Barry Abrahams, Nevin Aspinwall, Roger Brousseau, Wolfgang Eberl, Patrick De Rham, Jorge sanjuan De Torres, Russ Feilzer, Bill Gallagher, Tomas Hrbek,

Hal Henglein, Jean Huber, Wright Huntley, Dominic Isla, Morgens Juhl, Rosario La Corte, Della Langton, Thomas Litz, Paul Loiselle, Richard Martino, John Metzger, Al Morales, Dan Nielsen, Eduard Pürzl, Alfred Radda, George Slusarczuk, Lothar Seegers, Winfried Stanglein, Peter Tirbak, Bruce Turner, Geert-Jan van Huijgevoort, Brian Watters, Chris Wetmore, and Ruud Wildekamp for providing information for the list. All errors are the responsibility of the editor and compiler. Contributions to the list are always welcome.

Roger W. Langton

Scanned and converted to digital text by Lee R. Harper, February 2006 in order to preserve the records. Some initial typographical errors were corrected, probably some were introduced by the scanning process and some index changes were made to avoid replication, but, mainly the original format is preserved. No nomenclature changes have been added. Later editions may include updated references.

Wild Collections of Killifish 1950-2003

Jorgen Scheel's "Killie Letters," he mentions the first post-war introductions of *Aphyosemions* into Denmark. Using the nomenclature of the time (1959), here is his list: *Aphyosemion cognatum* (Collected by **Dubois** and imported in 1950), *Aphyosemion australe* 1953-54, *Aphyosemion bivittatum* 195354, *Aphyosemion cognatum* 1954 (Import), *Aphyosemion filamentosum* 1955, *Aphyosemion petersi* 1955, *Aphyosemion sjoestedti* 1955, *Aphyosemion nigerianum* 1955, *Aphyosemion calabaricus* 1956, *Aphyosemion coeruleum* 1956, *Aphyosemion labarrei* 1956, *Aphyosemion calliurum* 1957, *Aphyosemion ahli* 1957 and *Aphyosemion schoutedeni* 1958. It is likely that most of the preceding species came from **Stenholz Clausen**. (E. **Roloff** (1958) & **H. Hansen** (1950s) collected and established *Nothobranchius rachovii*. *Apocheilus dayi* *dayi* was imported in 1952).

Hansen, Henry (Hank) 1950s, Kenya & Mozambique.

Nothobranchius foerschi (Called *Nothobranchius palmqvisti* Dar es Salaam at that time), *Nothobranchius melanospilus*, *Nothobranchius rachovii*. (While in Mozambique Hansen visited a bar where he asked the local people where he could find *Nothobranchius rachovii*. A young woman left the table where Hansen was sitting and soon came back with a rusty can which Hansen dumped into a beer glass. It was *Nothobranchius rachovii*! They could be found in a small pool right by her house.) (Jack Scheidness, the inventor of the nylon mop, gave eggs of *Nothobranchius foerschi* and *Nothobranchius melanospilus* (1958) to **Rosario La Corte** who line-bred the latter species for 28 consecutive years. **Scheidness** also sent some of Hansen's stock to Jorgen Scheel. **Hank Hansen** became the chief breeder at **Ross Socolof's** fish farm in Florida.) (Information supplied by **Rosario La Corte** in 1995).

Sheljuzhko, L. 1953, Southeastern Ivory Coast.

Fundulopanchax walkeri (85 km north of Abidjan, towards Agboville) (According to Scheel (1990), this strain corresponds to the aquarium strain designated currently as "orange." Specimens were sent to Werner of Munich, Germany. A similar strain was collected by **J. Arnoult** in southeastern Ivory Coast in 1963. These collections probably are the sources of the current "orange" strain. All populations of *Fundulopanchax walkeri* are either extinct or thought to be highly endangered.) (See Scheel 1990, *Atlas of Killifishes of the Old World*, TFH, p. 363 & Scheel 1968, *Rivulins of the Old World* TFH, pp. 430-431.) (1953 is the year Dr. Eric Meder discovered peat moss as a spawning medium for annual fishes),

Arnoult, J. 1953, Madagascar.

Pachypanchax omalonotus (Maevatanana) (Specimens were brought to France by **Arnoult**.) (See Scheel 1990, *Atlas of Killifishes of the Old World*, P. 244).

Birket-Smith 1957, Akure, Nigeria.

Aphyosemion calliurum Akure (=*Fundulopanchax gardneri nigerianus*) (Specimens were brought to Denmark and given to Jorgen Scheel who distributed them widely in the hobby. This is the source of the popular Akure strain of *gardneri* which has both a blue and yellow morph. This population was probably mixed with the Owo strain collected by Clausen in 1962. The Owo strain has a yellow morph only. Rosario La Corte was the first to receive and breed the species in the USA.) (See Scheel 1968, *Rivulins of the Old World*, TFH, p. 219).

Roloff, Erhard 1958 (July), Beira, Mozambique.

Nothobranchius rachovii (This strain is still maintained by aquarists today), *Nothobranchius kuhntae*.

La Corte, Rosario & Herbert Axelrod 1958 (July), Brazil.

Cynolebias whitei. (During this trip La Corte introduced **Herbert Axelrod to Harald Schultz**. Incidentally, through **Schultz, La Corte** introduced new tetras to the hobby, including the Black Phantom tetra *Megalamphodus megalopterus*).

Commercial Import ca 1960, French Congo (Congo).

Aphyosemion lujae (=*Aphyosemion ogoense ottogartneri*), *Aphyosemion christyi* (=*Aphyosemion schoetzi*) (**Exported by Pierre Brichard** and widely distributed during the 1960s & 1970s.) (See **La Corte** 1961, *Aphyosemion lujae*, *Aquarium Journal*, pp. 64-65).

Roloff, Erhard 1961 (June) Ecuador

Rivulus limoneochae Hoedeman 1962 (Found in a stream at Limoncocha), *Rivulus taeniatus*.

Clausen, Stenholz 1962, Nigeria.

Aphyosemion calliurum Ijebu-ode, *Fundulopanchax gardneri nigerianus* Owo (Parenti, 1981.) (Based on this collection, **Clausen** described the Owo population as *Aphyosemion nigerianum* Clausen, 1963 (*Aphyosemion* =*Fundulopanchax*). In 1975 Scheel designated the Akure and Owo, as belonging to the subspecies *Aphyosemion gardneri clauseni*. The Jos Plateau, Makurdi, Misajé, as well as other populations, were designated *Aphyosemion gardneri nigerianum*. Currently, *Fundulopanchax gardneri nigerianus* is used for all of the latter populations. There is good reason to believe that the Akure population was mixed with the Owo population after 1962.) (See *Revue Francaise DAquariologie*, #1, 1975 & **Lazara** 1984, *Killifish Master Index*, AKA, p. 81-83.) (This is the year the AKA was founded. **Neal R. Foster** designed the AKA logo).

Leaky, Jonathan, 1962 (July), Kenya & Tanganyika (Tanzania).

Nothobranchius neumanni (=*Nothobranchius jubbi*) (17 miles north of Malindi on Garsen Road on Indian Ocean coast above Mombasa), *Nothobranchius neumanni* (Elongate *Nothobranchius* =*Nothobranchius elongatus*) (North of Kaloleni, 25 miles northeast of Mombasa), *Nothobranchius sp.* (=*Nothobranchius palmqvisti*) (Tanga *palmqvisti*, corrupted in the hobby to Tanganyika and later to Tanzania *palmqvisti*), *Nothobranchius melanospilus* (5 miles north of Pangani, Tanganyika), *Pantanodon podoxys*. (Some of these fish were sent to **Bruce Turner, John Gonzales and Rosario La Corte**.) (See *Advanced Aquarist Magazine*, August, 1972 #39 & JAKA, September October 1983, pp. 188-194).

Schultz, A.V.D. & W. A. Kyburz 1962, Brazil & Colombia.

Cynolebias adloffii, *Cynolebias melanotaenia*, *Cynolebias wolterstorffi*. (A. V. D. Schultz, brother of **Harald Schultz**, collected in Brazil and sent material to **John Gonzales and Bruce Turner**. Other imports by **Turner & Gonzales** came from Colombia: *Rachovia hummelincki* & *Austrofundulus limnaeus* (Sincelejo) and a year later *Austrofundulus limnaeus* (Goajira peninsula). The collector was W. A. Kyburz. These activities ceased in 1965 when **Gonzales** gave up his hatchery due to back problems. **Gonzales** was the first to breed *Pterolebias zonatus*, *Pterolebias hoignei*, *Cynolebias adloffii* and *Cynolebias wolterstorffi*. Gonzales began keeping killies in the 1930s.) (**Turner**-personal communication & a letter written by **Gonzales** Feb. 14, 1989).

T. Stuart McClure 1963, Ghana.

Fundulopanchax walkeri (Akwatia) (This species was imported by **John Gonzales & Bruce Turner**. **Turner** sent specimens to Jorgen Scheel who had *Fundulopanchax walkeri* from both the **McClure** (Ghana) and **Arnoult** (Ivory Coast) collections.)

(Turner-personal communication.) (See Scheel 1968, *Rivulins of the Old World*, TFH Pub. pp. 430-43 1).

Arnoult, J. 1963, Southeastern Ivory Coast.

Fundulopanchax walkeri (Orange) (See 1953 collection of Sheljuzhko).

Roloff, Erhard 1963 (December), Sierra Leone.

Fundulopanchax toddi (Near Barmoi), *Aphyosemion brueningi* (Giema- first collection, described 1971), *Aphyosemion geryi*.

Olsen, Harold 1964, Guinea.

Epiplatys lamottei.

Kretschmar, Sigrid & G. Benl, 1965 (February), Conakry, Guinea.

Epiplatys annulatus (Two shipments were sent to **Erhard Roloff**, a total of 27 fish, all survived. *E. annulatus* was in hobby in 1955 and again in 1960 but were lost until this 1965 shipment. S. Clausen sent a shipment from Monrovia, Liberia to **J. Scheel** about this time. Species became established in the hobby).

Roloff, Erhard 1965, Sierra Leone.

Aphyosemion guineense.

Clausen, Stenholt 1965, Monrovia, Liberia.

Epiplatys annulatus, *Epiplatys fasciolatus*, *Aphyosemion sp. aff liberienne*. *Epiplatys barmoiensis*, *Epiplatys dageti monroviae*. (Live specimens were sent to **Jorgen Scheel**).

Scheel, Jorgen & Stenholz Clausen 1966, Cameroon.

Fundulopanchax cinnamomeus (44 miles north of Kumba), *Aphyosemion cameronense* (18 Miles west of Yaoundé), *Epiplatys sexfasciatus* (Lake Barombi-ma-Mbu), *Aphyosemion calliurum*, *Aphyosemion bualanum*, *Aphyosemion cameronense* (East of Efoulan), *Fundulopanchax batesii* (Died in transit), *Aphyosemion bamilekorum* (Died in transit), *Aphyosemion riggenbachi* (Between Vuri & Dibainba Rivers).

Kirk, R. G. 1966 (July), Lake Chilwa area, Malawi.

Nothobranchius kirki (Known as N. sp. U-1 until its description in 1968 by Jubb.) (Found in a pool adjacent to the Likangala River, a part of the Lake Chilwa drainage basin. Two pairs were sent to a large firm in Germany and obtained by **Dieter Leuring**. He sent them to **Richard Haas** who distributed offspring to AKA members in 1967.) (See AKA Index (1983) *Nothobranchius kirki*, **Joe Ricco** Indexer).

Lambert, J. G. & J. Géry 1967, Gabon.

Aphyosemion lamberti (Thought to be *Aphyosemion christyi*, later described by **Radda & Huber** 1977 as *Aphyosemion lamberti*), *Aphyosemion punctatum* (Ivindo basin) (Called *Aphyosemion striatum ogoense*, described as *Aphyosemion punctatum* by **Radda & Pürzl** in 1977.) (See JAKA Sept-Oct 1977).

Blair, David 1968 (June), Western Ghana.

Fundulopanchax seymouri (=*Pronothobranchius kiyawensis*) (See JAKA, Vol 8 #1, 1971).

Scheel, Jorgen 1968, Bioko Island (Fernando Po).

Fundulopanchax oeseri (formerly called *Aphyosemion santaisabellae*), *Epiplatys sexfasciatus*.

Scheel, Jorgen 1968, Equatorial Guinea (Rio Muni).

Aphyosemion bivittatum (=splendopleure), *Aphyosemion calliurum*, *Epiplatys grahami* (South of Benito River), *Aphyosemion cameronense* (Upper Rio Ecucu, 36 km east of Bata) *Aphyosemion cameronense* (Lower Benito, 53 km east of Bata). (**Scheel** donated a pair of *Aphyosemion santaisabellae* (Fernando Po) and *Aphyosemion cameronense* (Rio Ecucu, 36 km east of Bata, Rio Muni) to the 1969 AKA convention. The fish were given to **Joe Ricco and Peter Tirbak**. The beautiful *A. cameronense* species was bred for awhile by **Royal Ingersoll** but died out in middle 1970s).

Furzer, Richard & W. Warne 1968 (March), Southeastern Rhodesia.

Nothobranchius orthonotus, *Nothobranchius furzeri* (Undescribed at time and given the code N. sp. U-2, later described by **Jubb** 1971. Bred by **Walter Foersch** and distributed by Joe Ricco who was the first in the AKA to receive this species ca 1972).

Scheel, Jorgen 1969, Cameroon.

Aphyosemion calliurum, *Aphyosemion celiae*, *Aphyosemion riggenbachi* (Nyong, Sanaga and Dibamba drainages) (DKG founded in 1969).

Thomerson, Jim, D. Taphorn & Leo Hoigne 1969 (August), East of Lake Maracaibo, Venezuela.

Pterolebias zonatus, *Austrofundulus dolichopterus*, *Rachovia maculipinnis*, *Rachovia hummelincki* (JAKA, Vol. 7, #2, 1971), 3 unidentified *Austrofundulus*, (Live specimens of these annuals were donated to the New & Rare Species committee and 1969 AKA convention), *Rivulus stellifer*, *Rivulus lyricauda*, *Rivulus gransabanae*, *Rivulus tecminae*-some of these *Rivulus* species

may have been collected much later than 1969. (See **Huber**, *Review of Rivulus*, p. 56).

Radda, Alfred & Walter Haefelin 1970 (January), Cameroon.

Fundulopanchax mirabilis mirabilis (Near Mbio), *Fundulopanchax mirabilis moensis* (Mo River between Bamenda and Mamfé), *Aphyosemion ahli* (Kribi), *Epiplatys sexfasciatus* (Kribi, road from Yaoundé to Edéa), *Fundulopanchax cinnamomeus* (Near Baduma), *Epiplatys sexfasciatus rathkei* (Kake River near Kumba), *Aphyosemion bivittatum* (Yellow form near Lobe River Falls, red form near Kribi, wine-red form Kake River near Kumba-probably *splendopleure* or *loennbergii*), *Aphyosemion bualanum* (=*Aphyosemion elberti*) (Ndop), *Aphyosemion obscurum* (Between Yaoundé and Edéa), *Fundulopanchax gardneri lacustris* (Lake Ejagham), *Fundulopanchax gardneri mamfensis* (Eyomojok, Besongabang), *Fundulopanchax einnamomeus* (Babenzi, Baduma), *Epiplatys esekanus* (On road from Yaoundé to Edéa), *Procatopus* sp. (Kribi), *Procatopus nigromarginatus*, *Procatopus aberrans*, *Procatopus roseipinnis*, *Procatopus similis*, *Procatopus glaucicaudis*. (See *Killie Notes*, Sept. 1972, Dec. 1972, Jan. 1973, Feb. 1973 & Mar. 1973).

Brichard, Pierre 1970 (Spring), D. R. Congo.

Aphyosemion labarrei, *Aphyosemion* sp. NSC-4 (Related to *Aphyosemion labarrei*. "*Aphyosemion brichardi*" used by Thomas Cahalan-sent to USA by Brichard), *Aphyosemion melanopteron* (=*Aphyosemion conicum*) (Gamba River) (See Wildekamp 1993, *A World of Killies*, p. 136 & pp. 202-203).

Radda, Alfred 1971 (January-February), Cameroon.

Aphyosemion bivittatum (6 forms), *Aphyosemion calliurum* (3 forms), *Aphyosemion celiae*, *Aphyosemion cameronense* (4 forms), *Aphyosemion exiguum*, *Fundulopanchax batesii*, *Fundulopanchax gardneri*, *Fundulopanchax cinnamomeus*,

Aphyosemion franzwernerii, *Fundulopanchax mirabilis* (3 forms), *Aphyosemion bamilekorum* (*Aphyosemion bamilekorum* and *Fundulopanchax mirabilis traudeae* were described from material collected on this trip), *Epiplatys sexfasciatus* (4 forms), *Epiplatys grahami*, *Epiplatys esekanus*, *Epiplatys sangmelinensis*, *Procatopus nototaenia*, *Procatopus similis* (3 forms), *Apocheilichthys macrophtalmus*, *Apocheilichthys spilauchen*, *Apocheilichthys camerunensis nov. spec.* (See *Aquaria*, 6.30-32, 1972).

Fröhlich, Walter, 1971, Cameroon.

Epiplatys sexfasciatus rathkei (Mungo River north of Kumba).

Roloff, Erhard 1971 (November), Northwestern Liberia.

Aphyosemion viride, *Epiplatys lamottei* (Collected near the border with Guinea, about 70 km from N'Zerekore at 200m above-sea level. It is highly likely that many of the *Epiplatys lamottei* currently in the hobby are derived from this collection), *Fundulopanchax monroviae* (All species were sent to **Paul Hoppe** in August, 1972.) (See *Das Aquarium* May 1973 or BKA translation and reprint *Epiplatys lamottei: A Child of the Twilight*, undated).

Langton, Roger 1971 (October), Cameroon.

Fundulopanchax batesii (First to bring back alive and breed), *Aphyosemion ahli* (11 km east of Edéa - probably *Aphyosemion edeanum*), *Aphyosemion exiguum*, *Epiplatys sexfasciatus* (East of Edéa). No longer in the hobby.

Vlaming, Jaap 1971, Eastern Cameroon (Near Diang).

Aphyosemion wildekampi (Imported by **R. Wildekamp** and distributed under designation K-4, described by **Berkenkamp** 1973. It has been reported that the type locality has been destroyed.)

Etzel, Vollrad 1971 (October) & 1972 (March), Indonesia (Sumatra).

Aplocheilus panchax siamensis (Bukittinggi).

Herzog, Wolfgang & F. Bochtler 1972 (January), Gabon.

Aphyosemion striatum, *Aphyosemion (Diapteron) cyanostictum*, *Aphyosemion (Diapteron) georgiae*, *Aphyosemion cameronense*, *Fundulopanchax splendidus*, *Aphyosemion herzogi*, *Aphyosemion bochtleri* (First collection).

Radda, Alfred, Eduard Pürzl, K. H. Haas, E. Haller & H. Feucht 1972 (February-March), Cameroon.

Aphyosemion ahli (Kribi), *Aphyosemion loennbergii* (Kribi), *Aphyosemion splendopleure* (Kribi), *Aphyosemion pascheni* (Kribi-Bipindi road), *Aphyosemion exiguum* (Sangmelima), *Aphyosemion cameronense* (Sangmelima), *Epiplatys sexfasciatus baroi* (Kribi), *Epiplatys grahami* (Kribi), *Aplocheilichthys macropthalmus* (Kribi), *Aplocheilichthys scheeli* (Kribi). A. C. Radda stayed one week longer and collected: *Fundulopanchax gardneri nigerianus* (Misajé) (The first specimens of *Fundulopanchax gardneri nigerianus* were collected in 1955 near the Ife-Ondo-Akure area, Nigeria. These were brought to Denmark by S. Clausen and are the source of the "old" aquarium strain-Akure. The Misajé strain collected in 72 is the source of most, if not all, of the Misaji *gardneri* currently in the U.S.A.), *Aphyosemion marmoratum* (16 km northeast of Mbonge on road to Kumba-original description based on this collection.), *Fundulopanchax mirabilis traudeae*. (See *Aquaria* #20, 1973).

Langton, Roger 1972 (July), Oaxaca, Mexico.

Profundulus punctatus (= *Profundulus oaxacae*- according to Miller) (One male and one female collected; the species remained in hobby despite 22 years of inbreeding but is believed to have died out in 1995. Langton returned to the site in 1990)

and could not find the species due to habitat pollution. Its status in the wild is uncertain.) (See *Killie Notes*, Jan. 1973 & JAKA March-April 1994, pp. 44-47).

Thomerson, Jim & P. Cala 1972 (August), North coastal region, Colombia.

Rachovia brevis (Near Cartagena and Fundacion) (Previously called *Rachovia splendens*). (See JAKA, Feb. 1977).

Brasil, Gilberto Campello 1972-73, Brazil.

Cynolebias antenori (Ceara)--30 trios. *Cynolebias alexandri* was collected by Brasil in 1973. Steve Sellers distributed these species through the AKA's N&RS Committee. As of 1995 offspring of both species were still in the hobby. (See *Killie Notes*, Dec. 1972 & Oct., 1973).

Fanara, Dean 1973, Kenya.

Nothobranchius sp. U-1 1 (=*Nothobranchius elongatus U- 11*) was imported by Steve Sellers and distributed by the AKA's N&RS Committee. As of Dec. 1993, offspring of this species were still in the hobby. (Dan Nielsen D.V.M., personal communication). (See *Killie Notes*, Sept. 1973). *Nothobranchius* sp. Munyenze (=*Nothobranchius elongatus*) was collected and bred in Kenya by **Dean Fanara** who sent eggs to **Roger Langton**. The fish were raised by **Langton** and distributed by Sellers. (See *Killie Notes*, Dec, 1973).

Herzog, Wolfgang, Haas, F. Bochtler, Gaspers & B. Umfahrer 1973 (January), Gabon.

Aphyosemion (Diapteron) fulgens, *Aphyosemion gabunense*, *Fundulopanchax kunzi* (=*Fundulopanchax splendidus*).

Goldstein, Robert 1973 (January), Cozumel, Mexico.

Rivulus marmoratus, *Jordanella (Garmanella) pulchra*, *Cyprinodon variegatus artifrons*.

Korthaus, Edith 1973 (January & March), Island of Mafia, Tanzania.

Nothobranchius korthausae (The first collection occurred in January 1972 but only one male survived the trip to Germany. The male was photographed by Foersch who showed the photo to Korthaus at the 1972 DKG Convention and she agreed to collect again. N. *korthausae* specimens were received by Foersch in January and March 1973. A pair from the March shipment was bred and distributed by Walter Foersch. The red form was collected by Eggers in June 1982.) (See JAKA 1974. Vol. 7, No 1, pp. 11-17).

Grant, Stuart 1973 (February- March), Malawi.

Nothobranchius orthonotus (N. sp. U-7) (=*Nothobranchius orthonotus* "Chiromo").

Scheel, Jorgen, Alfred Radda, Otto Gartner & Eduard Pürzl 1973 (March), West Cameroon.

Aphyosemion calliurum (Ekondo Titi & other strains), *Aphyosemion splendopleure* (Ekondo Titi), *Aphyosemion bamilekorum* (Bafoussam), *Aphyosemion riggenbachi* (North of Yabassi), *Fundulopanchax puerzli* (Henda River-first collection), *Fundulopanchax robertsoni* (Ekona), *Fundulopanchax rubrolabialis* (Swamp 18 km northwest of Mbonge-type locality).

Grant, Stuart 1973 (April), Malawi.

Nothobranchius sp. Salima (N. sp. U-8) (=*Nothobranchius* sp. Salima MW 88-1) (=*Nothobranchius* sp. Salima MW 91-1) (=*Nothobranchius* sp. Salima MW 92-5) (=*Nothobranchius* sp. Salima MW 94-1), *Nothobranchius* sp. Liwonde (N. sp. U-10) (=*Nothobranchius* sp. Liwonde MW 88-7)

Etzel, Vollrad 1973 (July), Thailand.

Aplocheilus panchax panchax (Ayuthya).

Semeit, Allan 1973, Brasilia, Brazil.

Cynolebias boitonei (Without pelvic fins), *Cynolebias whitei*. (See JAKA, Dec. 1973).

Commercial Import 1974.

Fundulopanchax spoorenbergi (Imported by Roelof's, an aquarium importer in Amsterdam, Netherlands. The location in nature is not known.) (See **Wildekamp, R.**, A World of Killies Vol. 1, p. 240).

Pürzl, Eduard & Thys Van den Audenaerde 1974 (February), Cameroon.

Fundulopanchax amieti (500 in west of Somakak (=Songinakak) southwestern Cameroon-description based on this collection.) (See *Aquaria* #23, 1976), *Aphyosemion cameronense* (Akonolinga), *Aphyosemion exiguum* (Akonolinga), *Aphyosemion riggenbachi* (Somakak), *Aphyosemion wildekampi* (Lomie), *Epiplatys sexfasciatus* (Somakak), *Fundulopanchax batesii* (Akonolinga).

Hemingway, E., L. Greenall, B. Wiggins & M. Walpole 1974
(July), Kenya.

Nothobranchius sp. Olago (=melanospilus), *Nothobranchius* sp.
Mwazuma (=elongatus).

Schreiber, Gerhard 1974 (August), Ghana.

Fundulopanchax walkeri Kutunse (GH 2-74 = GH 2) (The habitat of
GH 2 has been destroyed), *Epiplatys chaperi schreiberi* GH 1 - 74
(Thought to be extinct in the wild).

Radda, Alfred 1974 (November-December), Southeastern Nigeria.

Epiplatys longiventralis, *Epiplatys biafranus*, *Epiplatys sexfasciatus*,
Aphyosemion bivittatum, *Aphyosemion calliurum*, *Fundulopanchax*
gardneri, *gardneri*, *Fundulopanchax gardneri nigerianus*,
Aphyosemion scheeli, *Aphyosemion scheeli akamkpaensis*.

Radda, Alfred 1974 (December), Cameroon.

Fundulopanchax kribianum (Collected, to quote **Radda**, "in water
holes of a swampy spring area of a brook about 3 km upstream. The
brook crosses the Kribi-Campo road about 7 km south of Kribi near
the ferry across the Lobé River, East Cameroon. After an exhausting
upstream march of one hour across fallen trees, I was lucky enough
to catch one female and three males... I suddenly realized that I had
lost my bearings. Again after climbing over cross-lying trees and
penetrating very dense vegetation, being bitten by ants and stung by
many mosquitoes and flies, I found my way back and arrived
completely wet... from my involuntary bath in a deep pool... On
seeing my car again, I felt quite relieved.") (See BKA publication, A
Review of *Aphyosemion gulare* and its Relatives with the
Description of *Aphyosemion kribianum* nov. sp., no date for
publication-1970s).

Grant, Stuart 1975 (March-April ?), Malawi.

Nothobranchius orthonotus (N. sp. U-7) (= *Nothobranchius orthonotus* Chiromo).

Etzel, Vollrad, & Willie Kessel 1975 (November) Ngabu, Sierra Leone.

Fundulopanchax todii ("Etzel's todii"), *Aphyosemion etzeli*, *Aphyosemion chaytori*, *Epiplatys annulatus*, *Epiplatys fasciolatus*, *Epiplatys bifasciatus* (= *lokoensis*?).

Radda, Alfred, E. Haller & Eduard Pürzl 1975 (November-December) Cameroon and Gabon.

Aphyosemion maculatum (Type locality-Koumameyong, Gabon), *Aphyosemion cameronense halleri* (Ambam, Cameroon), *Aphyosemion cameronense haasi* (Zomoko, Gabon), *Aphyosemion bochtleri* (Ovan, Gabon), *Aphyosemion punctatum* (Ovan, Gabon-type locality). (See JAKA May, June & July 1977, also Sept-Oct. 1977).

Bochtler F. & Gaspers 1976 (January) Gabon.

Aphyosemion gabunense boehmi (--*marginatum*?).

Huber, J. H. 1976 (August), Gabon.

Aphyosemion coeleste G15-76 near Massango, *Aphyosemion exigoideum* G31-76, *Aphyosemion ocellatum* G20-76 Migoto-Ogoulou stream system between Magara and Lamadou, *Aphyosemion citrineipinnis*, *Aphyosemion punctatum* G18-76, *Aphyosemion rectogoense* G 11-76 Djouele-Leconi river system, *Aphyosemion joergenscheeli* G20-76 relict position, *Aphyosemion primigenium* G23-76, G24-76, G25-76, *Aphyosemion simulans*, *Aphyosemion mimbon*, *Aphyosemion* (*Diapteron*) *abacimum*, *Aphyosemion lamberti*, *Aphyosemion* sp. aff. *splendopleure* Cap Esterias, (= *Aphyosemion alpha*),

Plataplochilus sp. Moande G15-76 (= *Plataplochilus terveri*)
(Collection designations not known for some species).

Wright, Fred, J. Parker, Rod Roberts, T. Radda & J. Wapenaar
1976 (Jan-Feb), Sierra Leone.

Epiplatys annulatus, *Epiplatys fasciolatus*, *Apocheilichthys* sp.?,
Aphyosemion roloffi, *Aphyosemion geryi*, unidentified *Aphyosemion*
species (--Small Roloffias).

Wildekamp, Ruud, T. Steinfort and Rob Van Haarlem 1976
(June), Tanzania.

Nothobranchius sp. Manyara, *Nothobranchius melanospilus*
(Chanzum), (Kimamba), (Dar es Salaam), *Nothobranchius steinforti*
(Kimamba), *Nothobranchius* sp. Mbeya (Collected by **Jan Pap** and given to the above collectors during their visit), *Apocheilichthys usanguensis* (Collected by **Jan Pap** and given to the above collectors during their visit), *Apocheilichthys omoculatus* (Collected by **Jan Pap** and given to the above collectors during their visit), *Nothobranchius lourensi*, *Nothobranchius janpapi*, *Pantanodon podoxys* (Dar es Salaam).

Pürzl, Eduard, O. Hofmann & O. Schwarzinger 1977 (January), Cameroon.

Aphyosemion bualanum (Ndikinimeki), *Aphyosemion bualanum* (= *Aphyosemion elberti*) (N'tui), *Aphyosemion dargei* (First collection, Mbam ferry close to Goura), *Aphyosemion franzwerneri* (Type locality), *Aphyosemion volcanum* (Type locality, Kumba), *Fundulopanchax amieti* (Somakah), *Fundulopanchax batesii* (Mbandjok), *Procatopus similis* (Kumba). (See **Radda & Wildekamp**, The *Aphyosemion exiguum* and *Aphyosemion batesii* groups, BKA publication, no date).

La Corte, Rosario & Leo Hoigné 1977 (October), Venezuela.

Pterolebias zonatus, *Pterolebias hoignei*, *Cynolebias (Terranatos) dolichopterus*, *Rivulus stellifer*. (This is the trip where Leo Hoigné was bit in the leg by a piranha and suffered a serious injury).

Pürzl, Eduard & O. Hofmann 1978 (March), Ghana and Ivory Coast.

Aphyosemion petersi (Awaso, Ghana) *Epiplatys chaperi schreiberi* (Kumasi, Ghana) (Probably extinct), *Epiplatys sheljuzhkoi* (Banoua, Ivory Coast), *Epiplatys olbrechtsi* (Grand Bereby, Ivory Coast) *Epiplatys dageti dageti* (Tabou, Ivory Coast), *Aplocheilichthys rancureli* (Bonoua (sic), Ivory Coast).

La Corte, Rosario 1978 (July), Barra de Sao Joao, Brazil.

Cynolebias constanciae (Rio dos **ostros** -- **Rosario La Corte** collected four pairs in the wild, bred and distributed them among AKA members. This is the source of all specimens currently in the hobby (1995), *Cynolebias whitei*, *Cynolebias minimus*, *Cynolebias boitonei* (With pelvic fins - *Cynolebias santanae*). (See JAKA July-August 1979 & JAKA September-October 1982).

Buytaert, Jan (John) & Walter Wachters 1978 (August), Republic of Congo (RPC).

Aphyosemion coeleste RPC 5, *Aphyosemion pyrophore* RPC 18, 19, *Aphyosemion wachtersi* RPC 19, 30, *Aphyosemion schluppi* RPC 18, 28, *Aphyosemion thysi* RPC 20, 22, *Aphyosemion buytaerti* RPC 28, *Aphyosemion caudofasciatum* RPC 28,29,30, *Aphyosemion louessense* RPC 24, 31, 32, 33, *Aphyosemion microptalmum* (=*Aphyosemion escherichi*.) (This is one of the key collections during this period due to the fact that the fish were bred in large numbers and widely distributed among hobbyists. Buytaert distributed many pairs at the 1980 AKA

convention in Los Angeles. Some species are still in the hobby today, e. g. *Aphyosemion coeleste* RPC 5).

Holler, E. 1978 (August), Kenya, coastal region & Kaloleni.

Nothobranchius jubbi, *Nothobranchius palmqvisti*, *Nothobranchius melanospilus*, *Nothobranchius elongatus* (Type locality, Kaloleni) (Not known if introduced to the hobby),

Huber, J. H. 1978 (July-August), Republic of Congo,

Adamastrom formosus (JH 110, JH 111, JH 125 Alima, Vouma and Likouala drainages), *Aphyosemion schioetzi* JH 101, JH 102, JH 103, JH 106, JH 108, JH 117, JH 118, JH 119, JH 120, JH 121, JH 122, JH 123, JH 176, JH 178, JH 179, *Aphyosemion cf. decorsei* JH 111, JH 113, JH 114, JH 125, *Aphyosemion cf. christyi* JH 124, *Aphyosemion elegans* JH 137, *Aphyosemion chauchei* JH 130, *Aphyosemion wildekampi* GJH 141, JH 143, JH 145, *Aphyosemion cameronense* JH 150, JH 153, JH 155, *Aphyosemion exiguum* JH 154, *Aphyosemion sp. elegans* JH 140, JH 141, JH 156, *Aphyosemion thysi* JH 158, *Aphyosemion coeleste* JH 159, JH 160, JH 161, JH 162, *Aphyosemion schluppi* JH 163, *Aphyosemion pyrophore* JH 164, JH 165, *Aphyosemion louessense* JH 166, JH 167 (Sibiti), *Aphyosemion ottogartneri* JH 169, JH 170, *Aphyosemion sp. aff. ogoense* JH 172, JH 173, JH 174, *Aphyosemion microptalmum* JH 180, *Aphyosemion zygaima* JH 175, *Aphyosemion cognatum* JH 179, *Epiplatys phoeniceps* JH 130, JH 131, JH 132, JH 137, JH 139, *Epiplatys boulengeri* JH 109, JH 112, JH 113, JH 116, JH 119, JH 120, JH 121, JH 122, JH 123, JH 127, JH 130, JH 131, JH 132, JH 139, *Epiplatys sp. multifasciatus* JH 144, JH 167, JH 168, *Epiplatys sp. aff. sangmelinensis* JH 146, JH 147, JH 148, JH 150, JH 151, JH 152, *Epiplatys chevalieri* JH 104, JH 107, JH 112, JH 125, JH 126, JH 128, JH 129, JH 135, *Epiplatys (Aphyoplatys) duboisi* JH 106, JH 110, JH 124, JH 126, JH 179, *Fundulopanchax splendidus* JH 111, JH 149, JH 151, JH 154, JH 157, *Micropanchax stictopleuron* JH 139. (See *Rev.fr. Aquariol.*, 9 (1982), 1,26 May 1982). *Aphyosemion (Diapteron) seegersi* (RPC-149),

Aphyosemion (Diapteron) cyanostictum (RPC-153). (See *DKG Journal*, 12 (1): 1-10, 1980). (80 collection localities are noted).

Etzel, Vollrad & F. J. Butz 1978 (November-December), Liberia & Sierra Leone.

Epiplatys azureus RL39, *Epiplatys barbatus* RL1, RL3, RL28, *Epiplatys fasciolatus tototaensis* RL40, RL41, RL42, RL60, RL61, RL62, RL63, RL64, RL65, *Epiplatys fasciolatus* RL34 (S.L.), *Epiplatys annulatus* RL3, RL16, RL28, RL59, *Epiplatys ruhkopfi* RL54, RL55, *Epiplatys olbrechtsi olbrechtsi* RL53, *Epiplatys dageti monroviae* RL28, *Epiplatys roloffi* RL45, RL54, *Epiplatys coccinatus* RL45, *Epiplatys josianae* RL33 (First discovery-described by **Etzel & Berkenkamp** 1983), *Epiplatys zimiensis* RL37 (Zimi, S.L.), *Aphyosemion brueningi* RL34, RL39, *Aphyosemion maeseni* RL33 (S.L.), RL53, RL54, *Aphyosemion viride* RL45, RL47, *Aphyosemion liberense* RL37 (S.L.), RL40, RL41, RL42, RL60, RL61, RL62, RL63, *Aphyosemion guineense* (?), *Fundulopanchax occidentalis* RL40. (RLn-EB could be used to avoid confusion with 82 trip.) (See *DKG-Journal* May 1993).

Brachet, Heinz 1978-1980, three trips to Togo.

Aplocheilichthys bracheti (No further information available).

Kauffmann, E., Horst Gresens, O. Armbruster, W. Kirchwehm & Vincenco Di Battista 1979 (January), Cameroon.

Aphyosemion bivittatum (Funge), *Aphyosemion exiguum*, *Aphyosemion cameronense*, *Aphyosemion splendopleure*, *Aphyosemion raddai*, *Aphyosemion calliurum*, *Fundulopanchax batesii*, *Epiplatys sexfasciatus*. (See *DKG-Journal*, September, 1980).

Haas, Richard 1979 (January), Somalia.

Nothobranchius patrizii, *Nothobranchius microlepis*,
Nothobranchius sp. Warfa blue (= *Nothobranchius jubbi* Warfa Blue).

Buytaert, Jan (John) 1979 (July), Republic of Congo.

Aphyosemion louessense RPC-201 Sibiti, *Aphyosemion schluppi* RPC-202, *Aphyosemion wachtersi* RPC-202, RPC-204, *Aphyosemion caudofasciatum* RPC-202, RPC-205b, *Aphyosemion buytaerti* RPC-205a, *Aphyosemion ogoense* RPC-206, RPC-207.

Huber J. H. 1979 (3-week trip), Gabon.

Aphyosemion primigenium GJH202 (N'dende), *Aphyosemion australe* GJH206 (Mayumba), *Aphyosemion microphthalmum* GJH204, GJH216, GJH221, *Aphyosemion joergenscheeli* GJH207, GJH208, GJH210 M'bigou, *Aphyosemion ocellatum* GJH208, GJH210, GJH21 1, GJH214 (Malinga), *Aphyosemion* sp. GJH212 = *louessense* GJH212 (Malinga), *Aphyosemion striatum* GJH219, *Aphyosemion* sp. aff. *obscurum* GJH222 (Assok), 2 females, 1 male, *Aphyosemion* sp. aff. *herzogi* GJH223 (Assok), *Aphyosemion bochtleri* GJH227 (Essong-Mediom), *Aphyosemion coeleste* GJH213, GJH215 (Malinga), *Aphyosemion thysi* GJH215 (Moungoundou), *Aphyosemion cameronense* GJH225, GJH226, GJ11227, *Epiplatys singa* GJH201 (Ngounie), *Epiplatys berkenkampi* GJH206 (Mayumba), *Epiplatys sexfasciatus* GJH232 (Meme), *Procatopus cabindae* GJH220 (Libreville), *Procatopus ngaensis* GJH221, *Aplocheilichthys spilauchen* GJH231 (N'toum.) (See *Rev. fr. Aquariol.*, 7 (1980), 2, 10 October 1980).

Brosset, A. 1979, Gabon.

Aphyosemion lamberti (Okondja), *Aphyosemion rectogoenense* (Franceville), *Epiplatys* sp. aff. *sangmelinensis* (Okondja), *Fundulopanchax splendidus* (Okondja).

Rosenstock, John 1979 (December), Kayuni State Farm, Zambia.

Nothobranchius sp. "Kayuni State Farm" (=N. *kafuensis* Kayuni State Farm) (Sent to **Mogens Juhl**, Denmark, first Notho to arrive alive from Zambia.) (See *JAKA*, May-June 1989).

Koford, Rolf 1979 (December), Guatemala.

Rivulus godmani (=*Rivulus tenuis*?)(*Rio Polochic*).

Fromm, Dan 1979, Costa Rica.

Rivulus rubripunctatus, *Rivulus siegfriedi*, *Rivulus glaucus*.

De Rham, Patrick 1979 & 1980, Peru.

Rivulus rectocaudatus (El Varillal & Quisto Cocha), *Rivulus intermittens* (El Varillal), *Rivulus rubrolineatus* (Southern upper Amazon Peru & Brazil), *Rivulus iridescent* (El Jenaro Herrerta), *Rivulus elongatus* (Cano Tiriri), *Rivulus speciosus* (Quisto Cocha lake), *Rivulus* aff. *ornatus*. (**Huber** discusses aquarium behavior of these species which suggests they were introduced into the hobby in Europe. (See *JAKA*, Jan-Feb 1983).

La Corte, Rosario 1980, Aruana, Brazil.

(During this trip **LaCorte** found a pond with clear water and no fish. He asked **Luis Costa** to check this pond again because it was ideal for annual species. Later **Costa** wrote to **LaCorte** informing him that three new species were found-*Cynolebias lacortei* (=*Maratecoara lacortei*), *Cynolebias costai* and

Cynolebias aruana (=*Plesiolebias aruana*) (All species were collected by La Corte in 1983 and 1988).

Pürzl, Eduard & O. Hofmann 1980 (June), Southern Gabon.

Aphyosemion hofmanni GHP 80-12 (55 km after Mimongo toward Mbigou), *Aphyosemion joergenscheeli* GHP 80-13 (14 km after Mbigou toward Lebamba), *Aphyosemion lamberti* GHP 80-5, (54 km after Moanda toward Lastoursville) *Aphyosemion ocellatum* GHP 80-8 (10 km east of Mimongo), *Aphyosemion ogooense pyrophore* GHP 80-23, (30 km south of Franceville), *Aphyosemion ogooense ogooense* GHP 80-1 (Mvengue, airport, Franceville), GHP 80-24 (61 km south of Franceville), GHP 8027 (20 km southeast of Franceville), *Aphyosemion rectogocene* GHP 80-30 (31 km east of Franceville toward Bongoville), *Aphyosemion aureum* GHP 80-6 (99 km after Mimongo toward Koulamoutou), GHP 80-7 (111 km after Mimongo toward Koulamoutou), *Epiplatys huberi* GHP 80-20 (25 km after Ndende toward Lebamba), *Hypsopanchax catenatus* GHP 80-24 (61 km south of Franceville).

Etzel, Vollrad 1980, Senegal-Gambia.

Aphyosemion geryi, *Epiplatys spilargyreius*, *Aplocheilichthys spilauchen*, *Aplocheilichthys normani*. (See DKG-Journal, August, 1983).

Agnese, I F. 1980 (August) Republic of Congo.

Epiplatys singa 251, 252 (M'Boulou), *Aphyosemion australe* 252, *Aphyosemion schioetzi* 253.

Lung, Karl 1980, (August), Kenya.

Nothobranchius sp. (=*Nothobranchius jubbi* Blue.) *Nothobranchius interruptus*. (See JAKA, May-June 1982, pp. 101-102).

Seegers, Lothar, Gerd Eggers & Christel Kasselmann 198081,
(December-January), Tanzania.

Paranothobranchius ocellatus TZ 81 (Mtanza) (=*Nothobranchius ocellatus*-this species was collected again by Seegers around 1986 from a different locality near Bagamoyo), *Nothobranchius eggersi* TZ 81 (Ruhoi Blue). In the summer of 1981, a Red male of *Nothobranchius eggersi* was collected by G. Eggers & C. Kasselmann and crossed with a Blue female(s) from the December-January collection to produce the "Red strain". Strains resulting from this cross have since deteriorated. Pure strains of both colors have subsequently been collected and should not be crossed: TAN 95-7, TAN 95-8, TAN 95-11, TAN 98-11 & TAN 98-12, *Nothobranchius melanospilus* TZ 81 (several localities), *Nothobranchius janpapi* TZ 81, *Aplocheilichthys kongoranensis* TZ 81, *Aplocheilichthys lacustris* TZ 81.

Kauffmann, E., O. Armbruster, Horst Gresens, W. Kirchwehm & Vincenco Di Battista 1981 (April) Cameroon.

Fundulopanchax cinnamomeus, *Fundulopanchax sjoestedti* (Funge, between Ndian and Mbonge-See Amiet, Fauna of Cameroon: The Genus *Aphyosemion*, p. 184), *Fundulopanchax gardneri mamfensis*, *Fundulopanchax mirabilis traudeae* (Tinto), *Fundulopanchax mirabilis mirabilis* (Takwai), *Aphyosemion calliurum*, *Aphyosemion bivittatum*. (See DKG-Journal, February 1982). ,

Staeck, Wolfgang, H. J. Wischmann & H. Fries 1981 (July), Peru.

Pterolebias wischmanni (Rio Ucayali south of Pucallpa), *Pterolebias peruvensis*, *Rivulus* sp. Iparia.

De Rham, Patrick 1981, Peru.

Rivulus amphoreus, *Rivulus atratus*, *Rivulus elongatus*, *Rivulus intermittens*, *Rivulus irideseens*, *Rivulus limoncochae*, *Rivulus*

ornatus, *Rivulus peruanus*, *Rivulus rectocaudatus*, *Rivulus rubrolineatus*, *Rivulus speciosus*, *Rivulus* sp. Tingo Maria, *Pterolebias peruensis*. (See Rev. fr. AquarioL, 8 (1981), 4, 1^{er} mars 1982).

Huber, J. H. 1981, Salvador do Bahia, Brazil.

Rivulus bahianus (Salvador do Bahia-near airport), *Rivulus strigatus*, *Rivulus urophthalmus* (Belem, Sao Luis), *Rivulus ocellatus* (Recife), *Rivulus pictus*, *Rivulus brasiliensis*, *Rivulus* aff. *decoratus*. (See JAKA-May-June 1993).

Huber, J.H. 1981, Northern and Central Brazil.

Leptolebias minimus, *Simpsonichthys helopites*, *Rivulus* sp. Vitoria, *Rivulus* sp. aff. *decoratus* Cameta.

Wildekamp, Ruud 1981, Central Turkey.

Aphanius mento (Kirkgoez), *Aphanius anatoliae transgrediens* (Lake Burdur), *Aphanius chantrei* (Katpuzatan near Kaysen), *Aphanius anatoliae anatoliae* (Lake Tuz).

Lung, Karl. 1981 (November), Kenya.

Nothobranchius cyaneus (= *Nothobranchius jubbi* Blue). (See Seegers, L. 1981. DATZ 34 (11):365-368).

Seegers, Lothar & Wolfgang Classen 1981-82 (Late December-Early January), Tanzania.

Nothobranchius sp. Chipogola (= *Nothobranchius neumanni* Chipogola), *Nothobranchius eggersi* (Blue phenotype), *Nothobranchius janpapi*, *Nothobranchius melanospilus*.

Eggers, Gerd & Christel Kasselmann 1982 (January), Island of Mafia, East Africa.

Nothobranchius korthausae (Shows some color variation from the species bred by W. Foersch in 1973.) (See Seegers, L. 1985. *Prachtgrundkärpflinge- Die Gattung Nothobranchius: Systematik, Vorkommen, Pflege und Zuecht*, DKG-Journal, Supplementheft Nr. 1, p. 25).

Weber, Dale 1982 (May), Middle Quarter Springs, Jamaica.

Cubanichthys pengelleyi, (See JAKA, September-October 1989).

Miller 111, Charles 1982 (May), Liberia.

Aplocheilichthys normani, *Epiplatys barmoiensis*, *Epiplatys dageti*, *Epiplatys fasciolatus*, *Epiplatys annulatus*. (A shipment of these fish was sent to **Charles Nunziata**).

Eggers, Gerd 1982 (June), Island of Mafia, East Africa.

Nothobranchius korthausae-Red. (Eggers collected five red males and seven brown males from the same pond. In Germany, the red males were bred , resulting in an equal number of red and brown males.) (See Das Aquarium Dec. 1982 and BKA Killie-News October 1983).

Heltzel, Huub & Jan Pap 1982 (August), Republic of Congo.

Aphyosemion schioetzi GHP-82-1 (Voula), GHP-82-2, GHP-823, *Aphyosemion zygaima* GHP-82-4, *Aphyosemion sp. aff. schioetzi* GHP-82-5 (Mindouli Mission), *Aphyosemion ogoense ottogartneri* GHP-82-7 (Mpassa), GHP-82-8 (Makola Village), *Aphyosemion microphthalmum* GHP-82-9 (Boko Songo), GHP-82-10 (17 km north of Makabana), *Aphyosemion coeleste* GHP-82-11 (Titi), *Aphyosemion thysi* GHP-82-12 (3.5 km north of Mossendjo), GHP-82-13 (6 km north of Mossendjo), *Adamas formosus* GHP-82-14 (Mbamou), GHP-82-20 (Near Brücke

OYO, Alima drainage), *Aphyosemion lefiniense* GHP-82-15 (Near village of Lefini), *Aphyosemion* sp. aff. *decoresi* GHP-8220 (Brücke Oyo), *Epiplatys boulengeri* GHP-82-15, GHP-82-16 (1.5 km north of Lefini), GHP-82-17 (South of Nkeni), GHP-8220 (Brücke [Bridge] Oyo), *Epiplatys chevalieri* GHP-82-17, GHP-82-18 (South of Como), *Aphyoplatys duboisi* GHP-82-20 (Brücke Oyo). (See JAFA, Jan-Feb, 1987 & JAFA, May-June 1990).

Radda, Alfred & Eduard Pürzl & Otto Hofmann 1982 (August), D.R. Congo.

Aphyosemion congicum Z82-16 (Vue River), Z82-17 (Vue River, Takundi, 200 km east of Kinshasa-formerly called *Aphyosemion melanopteron*), *Aphyosemion cognatum* Z82-2 (15 km southwest of Mbanza Ngungu), Z82-18 (Wamba River), Z82-22, Z82-23 (Pool Malebo, Stanley Pool), *Aphyosemion polli* Z82-26 (Njili airport of Kinshasa), *Epiplatys multifasciatus* Z8219 (Wamba River), *Epiplatys chevalieri* Z82-26 (Njili airport of Kinshasa). (See Wildekamp, A World of Killies, p. 136.)

Pütz, Wilfried & Vollrad Etzel 1982 (November), Liberia.

Aphyosemion brueningi RL93-EP82, *Aphyosemion liberiene* RL64-EP82 (Firestone Plantation), *Aphyosemion viride* RL106-EP82, *Aphyosemion guineense* RL99-EP82. *Epiplatys fasciolatus tototaensis* RL64-EP82, RL65-EP82, RL67-EP82, RL68-EP82, RL69-EP82, RL76-EP82, RL77-EP82, RL78-EP82, RL82-EP82, RL83-EP82, RL84-EP82, *Epiplatys annulatus* RL75-EP82, RL97-EP82, *Epiplatys azureus* RL87-EP82, *Epiplatys barnoiensis* RL66-EP82, RL74-EP82, RL75-EP82, RL87-EP82, *Epiplatys coccinatus* RL110-EP82, *Epiplatys dageti monroviae* RL65-EP82, RL66-EP82, RL82-EP82, RL86-EP82, RL87-EP82, RL97-EP82, *Epiplatys olbrechtsi olbrechtsi* RL113-EP82, *Epiplatys olbrechtsi puetzi* RL86-EP82, RL87-EP82, *Fundulopanchax monroviae* RL64-EP82 (Firestone Plantation), RL65-EP82, *Aplocheilichthys spilauchen* RL75-EP82, RL76-EP82, *Micropanchax* (=*Aplocheilichthys*) *nimbaensis* RL82-

EP82, RL86-EP82, RL110-EP82, *Aplocheilichthys normani* RL66-EP82, RL74-EP82, RL93-EP82. (Locations numbers go from RL64 to RL116) (See JAKA July-August 1993 & DKG Journal May 1993).

Commercial Import 1982, Nigeria?

Fundulopanchax gardneri nigerianus P-82 (Imported to the Netherlands-appears to come from the Jos Plateau area, Nigeria. 82 is assumed to be 1982).

Poliak, Daniel & Maurice Chauche 1982, Cameroon.

(Code: CCP 82-n--no collection data).

Rosenstock, John & Kaj Ostergaard 1982 (Nov-Dec), Tanzania.

Nothobranchius melanospilus.

Rosenstock, John & Kaj Ostergaard 1982 (December), Zambia.

Nothobranchius sp. Nega Nega (Now *Nothobranchius kafuensis* Nega Nega).

Wischmann, Hermann J. & Lothar Seegers 1982-83 (Late December-early January), Tanzania.

Nothobranchius sp. "TZ 83-5" (=*Nothobranchius rubripinnis* TZ 83-5), *Nothobranchius janpapi*, *Nothobranchius luekei*, *Nothobranchius melanospilus*, -*Aplocheilichthys* sp. Reference: **Wischmann, H.J.** 1983.(See DKG-Journal 15 (4): 49-50.) (See Seegers, L. 1984 DA TZ 37 (7): 248-252).

Fromm, Dan & Dale Weber 1983 (February), Panama.

Rivulus weberi (*Lago Bayano* basin-initially distributed as *Rivulus chucunaque*).

Willert, M. & M. Forstner 1983, Mariakani, Kenya.

Nothobranchius elongatus. (Not known if introduced to the hobby-Brian Watters).

La Corte, Rosario, Luis Costa, W. D. B. Filho & C. P. Neto 1983 (April) Aruana, Brazil.

Cynolebias lacortei (=*Maratecoara lacortei*) (males only), *Cynolebias costai*, *Cynolebias aruana* (=*Plesiolebias aruana*), *Trigonectes rubromarginatus* (All three *Cynolebias* species were new to science and described by Dr. **Kenneth J. Lazara** in 1990. Costa described *Trigonectes robrostigma*-also a new species.) (See JAKA September-October 1990).

Wildekamp, Ruud & Ali Ibrahim 1983 (June), Somalia.

Nothobranchius jubbi (Various populations), *Nothobranchius microlepis*, *Nothobranchius fasciatus*. ("Not known if any of these species were introduced into the hobby on this occasion"-Brian Watters).

Pürzl, Eduard, Rod Roberts & H. Peterka 1983 (July), Cameroon.

Aphyosemion cameronense (*Sangmelima*), *Aphyosemion exiguum* (Akono, Zoetele & Djoum), *Fundulopanchax batesii* (Djoum), *Epiplatys spilargyreius* (Garoua), *Epiplatys sangmelinensis* (Akono & Mbalmayo), *Aplocheilichthys camerunensis* (*Sangmelima*).

Montiel, Vincent & Jean F. Fels 1983, Guinea.

Rivulus - reported 41 new locations, rediscovered *Rivulus cladophorus*, *Rivulus xiphidius* (More research needed).

Vermaak, J. 1984, Kruger National Park & Natal, South Africa.

Nothobranchius orthonotus Blue (Pongola River area of Northern Natal), *Nothobranchius rachovii* KNP Black, *Nothobranchius orthonotus* KNP Red. (KNP= Kruger National Park).

Poliak, Daniel, Maurice Chauche, K. Tanaka, & M. Monin 1984, Cameroon.

Aphyosemion celiae celiae CCMPT 84-28 (Mambanda), *Aphyosemion poliaki* loc. Mile 29, CCMPT 84-22 (Between Muea and Muyuka.) (See JAKA-May-June 1993).

Vermaak, J., 1984 (April), Malawi.

Reichert, Juan, H. Salvia, F. Prieto & E. Perujo 1991
(November), Uruguay.

Cynolebias duraznensis DYU 11-91 (Vicinity of Durazno in central Uruguay) (=*Cynolebias affinis*).

De Rham, Patrick 1991 (November), Madagascar.

Pachypanchax omalonotus (Between Anivorano and Ambilobe-blue morph) (South and north of Ambanja - body more green than blue with bright orange or yellow fins) (In October 1992, **P. De Rham & Jean-Claude Nourissat** collected a species they called *Pachypanchax sp. aff. omalonotus* on the sides of the Ankofia River-numerous bright red spots on the body with red in the dorsal and anal fins.) (The populations of *Pachypanchax omalonotus* vary considerably and should not be mixed. The photo in Scheel's book *Atlas of Killifishes of the Old World* (1990) (P. 244) shows a mainland population found further south and west from the collections mentioned here-Maevatanana, 100 km southwest of Mahajanga (=Majunga). The Nosy Bé populations show color variations also.) (Langton, Roger Ed. *The Freshwater Fishes of Madagascar and their Conservation*, unpublished manuscript).

De Rham, Patrick 1991 & 1992, Peru.

Rivulus atratus, *Rivulus* sp. aff. *intermittens*, *Rivulus jucundus*, *Rivulus speciosus*.

Wildekamp, Ruud & Ine Van Dooren 1991-92
(December-January), Yucatan, Mexico.

Cyprinodon beltrani (Lago Chichancanab), *Fundulus grandissimus* (Progreso), *Floridichthys barbouri* (Progresso) (Cancun), *Floridichthys polyommus* (Progreso) (Cancun), *Cyprinodon variegatus artifrons* (Celestun), *Jordanella (Garmanella) pulchra* (South of Progreso).

Cynolebias vandenberghi.

Busch, Eckhard & Wiese 1993 (December), Sierra Leone.

Aphyosemion bertholdi SL 93-47 (Gbatamah), SL 9348 (Luwela), SL 93-49 (Farie), SL 93-51 (Victoria), *Aphyosemion chaytori* SL 93-24 (Ngabu), SL 93-34 (Kamabai), SL 93-37, Lenghe-Curoh), SL 93-38 (Nom-Mussiray), SL 93-42 (Fulawahun), SL 93-44 (Num-Lempeh), *Aphyosemion etzeli* SL 93-54 (Malai), *Aphyosemion geryi* SL 93-15 (Masheineh), SL 93-26 (Kertay), SL 93-14 (Port Loko), SL 93-27 (Boutonya), SL 93-43 (Mgobsi), SL 93-45, (Gbalayah), SL 93-53 (Baromi), *Aphyosemion guineense* SL 93-37 (Lenghe-Curoh), *Aphyosemion roloffi* SL 93-1 (Devil Hole), SL 93-2 (Newton-Kpubu), SL 93-6 (Kondubu), SL 93-7 (Number nine), SL 93-18 (Kagba), SL 93-19 (Rowarl), SL 93-23 (Bauya), SL 93-56 (Old Brama), SL 93-57 (Brama), *Fundulopanchax occidentalis* SL 93-24 (Ngabu), SL 93-39 (Ma-Barie), SL 93-46 (Mabaimah), SL 93-54 (Malai), *Fundulopanchax toddi* SL 93-15 (Masheineh), *Epiplatys fasciolatus* SL 93-6 (Kondubu), SL 9314 (Port Loko), SL 93-49 (Farie), SL 93-55 (Petifu bridge), *Epiplatys barbatus* SL 93-16 (Rokupr), *Epiplatys njalaensis* SL 93-19 (Rowarl), SL 93-31 (Kagbaneh), SL 93-34 (Kamabai), SL 93-36 (Fadugu), *Epiplatys bifasciatus* SL 93-30 (Mile 11), *Epiplatys annulatus* SL 93-55 (Petifu bridge), SL 93-57 (Brama), *Epiplatys sp. aff. fasciolatus* SL 93-39 (Ma-Barie), *Aplocheilichthys normani* SL 93-55 (Petifu bridge). (57 collections from this trip have been reported.) (See *Journal of the British Killifish Association*, July 1994, #346-editorial).

Commercial Import 1993. (These fish were sent to England by a commercial importer. **Tim Addis** of the BKA gave them codes which should be used when keeping these fish. Exact locations in the wild cannot be determined.)

Epiplatys sexfasciatus Lagos CI 1-93, *Epiplatys bifasciatus* CI 2-93, *Epiplatys fasciolatus fasciolatus* CI 3-93, CI 8-93, *Epiplatys annulatus* CI 4-93, *Micropanchax sp.* CI 5-93, *Aphyosemion geryi* CI 6-93, *Aphyosemion roloffi* CI 7-93, *Epiplatys chaperi*

schreiberi CI 9-93 (Probably extinct in the wild.) (See *Journal of the British Killifish Association*, April 1994.)

Wood, Trevor 1993, Natal, South Africa.

Aplocheilichthys myaposae (Kosi Bay).

Commercial Import, Goa, India.

Aplocheilus lineatus Goa (Males only) (A wild male from this shipment was crossed with an aquarium-strain female by a German commercial killie breeder named Gutsche. A few of the offspring had a strong golden pigment which was fixed after two generations. This is the source of *Aplocheilus lineatus* Gold (=Golden *dayi*, =Golden *lineatus*, Golden *Aplocheilus*, =*Aplocheilus* sp. Smalagd- a corruption of the German word Smaragd which means emerald.) (Sources: **Bruce Turner & Ruud Wildekamp**).

Seegers, Lothar 1993 Tanzania & Zambia.

Aplocheilichthys sp. TZ 93-26, *Aplocheilichthys omoculatus* TZ 93-36.

Seegers, Lothar 1993-94, (December-January) Tanzania & Kenya, (June-August 1994) Tanzania. (Two trips are combined).

Nothobranchius melanospilus TZ 94-1, TZ 94-7, *Nothobranchius rubripinnis* TZ 94-1, *Nothobranchius palmqvisti* TZ 94-7, *Aplocheilichthys kongoranensis* TZ 94-1, *Aplocheilichthys maculatus* TZ 94-2, *Nothobranchius (Paranothobranchius) ocellatus* TZ 94-4, *Pantanodon* sp. TZ 94-5. (June-August collection): *Nothobranchius taeniopygus* TZ 94-102, TZ 94-104, TZ 94-105, TZ 94-109, TZ 94-130, TZ 94-131, TZ 94-132, *Nothobranchius* sp. TZ 94-104, *Nothobranchius* sp. TZ 94-13 1, *Nothobranchius* sp. Limba Limba TZ 94-131.

Brousseau, Roger, Barry Abrahams & Cal Him 1994 (January), Brazil.

Cynolebias aff. *flavicaudatus* (Manga) BS 94-1 (Males from this collection are differently colored from those described by **Costa & Brasil** 1990,1991 (See JAKA July-August 1994), *Cynolebias* sp. Manga BS 94- 1, *Cynolebias costai*, (Aruana) BS 94-2, *Pituna poranga* (Aruana) BS 94-2, *Plesiolebias aruana* (Aruana) BS 942, *Trigonectes rubromarginatus* (Aruana) BS 94-2.

Wildekamp, Ruud & Ton Cooymans 1994 (January), Manaus, Brazil.

Rivulus micropus (Rio Pieta da Eva, Manaka Puro Road, north of Manus), *Rivulus obscurus* (Barcelos), *Fluviphylax pygmaeus* (Rio Pieta da Eva-Barcelos), *Moema staecki*.

Etzel, Vollrad 1994 (January), Southwestern Mali.

Aplocheilichthys ehrichi RM11 (178 km south of Bamako), *Epiplatys bifasciatus* RM4 (Selinguá), RM19 (15 km southwest of Sikasso).

Eberl, Wolfgang & Thomas Blum 1994 (February), Gabon.

Aphyosemion citrineipinnis GEB 94-1, *Aphyosemion joergenscheeli* GEB 94- 1, GEB 94-12, GEB 94-13, GEB 94-15, GEB 94-15, GEB 94-16, *Aphyosemion* sp. aff. *citrineipinnis* GEB 94-2, *Aphyosemion passaroii* GEB 94-3, GEB 94-4, GEB 94-5, GEB 94- 10, *Aphyosemion aureum* GEB 94-6, GEB 94-8, GEB 94-9, *Aphyosemion lamberti* GEB 94-7, *Aphyosemion ocellatum* GEB 94-11, GEB 94-12, GEB 94-13, GEB 94-16, GEB 94-19, *Aphyosemion hofmanni* GEB 94-14, GEB 94-16, *Aphyosemion* sp. GEB 94-17, *Aphyosemion coeleste* GEB 94-18, GEB 94-19, *Aphyosemion hanneloreae* GEB 94-19, GEB 94-20, *Aphyosemion primigenium* GEB 94-21, *Chromaphyosemion* sp. #5 GEB 94-22 (=LEC 93-24), *Aphyosemion* sp. aff. *herzogi* GEB 94-23 (=LEC 93-24), *Aphyosemion* sp. GEB 94-24,

Watters, Brian 1994 (March), Malawi.

Nothobranchius sp. *Salima* MW 94-1 (=*Nothobranchius* sp. MW 88-1, =*Nothobranchius* sp. MW-4), *Nothobranchius* sp. *Chia* MW 94-2 (=*Nothobranchius* sp. *Chia* 91-3, =*Nothobranchius* sp. 92-4), *Nothobranchius* sp. *Benga* MW 94-3 (=*Nothobranchius* sp. *Benga* MW 88-12, =*Nothobranchius* sp. *Benga* 91-5, =*Nothobranchius* sp. *Benga* 92-2), *Aplocheilichthys johnstoni* MW 94-4 (=*Aplocheilichthys johnstoni* MW 91-6, =*Aplocheilichthys johnstoni* MW 92-3), *Nothobranchius kirki* Chilwa MW 94-5 (=*Nothobranchius kirki* Chilwa MW 88-10, =*Nothobranchius kirki* Chilwa MW 91-1 1), *Nothobranchius* sp. Liwonde MW 94-6 (=*Nothobranchius* sp. Liwonde MW 88-6, =*Nothobranchius* sp. Liwonde MW 91-12), *Nothobranchius* sp. Golomoti MW 94-7.

Van den Berg, Leen 1994 (April), Western Paraguay.

Cynolebias bitteri, *Cynolebias chacoensis*, *Cynolebias patriciae*, *Neofundulus ornatipinnis*, *Pterolebias longipinnis*, *Rivulus punctatus*, *Trigonectes balzanii*. (See Jewels of the Chaco, Part 1, FAMA, Vol. 19, No. 1 (January 1996).

Wood, Trevor & Johan Ippel 1994 (May), Zambia.

Nothobranchius sp. ZMTW-94 (Nanzhila River) (Population of *Nothobranchius kafuensis*, "shows little sign of red, being mainly green-blue dependent on light sources.") (See *Journal of the British Killifish Association*, #347, August 1994.).

Redinger, Michael 1994 (August) northern Malawi.

Aplocheilichthys sp. Mayoka RPM 94-1 (= *Aplocheilichthys* sp. Kaporo MW 91-7), *Aplocheilichthys* sp. Kasundu RPM 94-1 (= *Aplocheilichthys* sp. Kaporo MW 91-7). (Shipped to Austria with the help of **Stuart Grant**).

De Rham, Patrick 1994 (August), Dominican Republic.

Rivulus roloffi? (Collected near Nagua).

Eberl, Wolfgang & Guido Passaro 1994 (August), northern Gabon.

(This remarkable collecting trip consists of 52 locations, bringing back 500 live specimens and some 300 preserved in alcohol: Eberl, personal communication) (See **Dadaniak, Lütje & Eberl** 1995, Faszination Killifische: Die "Aphyosemion cameronense" -Gruppe, pp. 287-292).

Litz, Thomas, Joachim Epham, Juan Reichert, Francisco Prieto & Heber Salvia 1994 (August-September), Uruguay.

Cynolebias luteoflammulatus (Before Rocha at km 205), (La Pedrera), (La Coronilla, Ruta 14, km 504), *Cynolebias viarius* (Aquas Dulces, km 273), (Arroyo Valizas), *Cynopoecilus melanotaenia* (Aquas Dulces, km 273), (Arroyo Valizas), (San Luis, Ruta 19, km 28.5), *Cynolebias cheradophilus* (Arroyo Valizas), *Cynolebias prognathus* (Chuy, Ruta 19, km 7), (San Luis, Ruta 19, km 28.5), *Cynolebias adloffii* (San Luis, Ruta 19, km 28.5), (La Coronilla, Ruta 14, km 504), *Cynolebias wolterstorffi* (San Luis, Ruta 19, km 28.5), (La Coronilla, Ruta 14, km 504), *Cynolebias gymnoventris* (Puente de la India Muerta, Ruta 13), *Cynolebias vazferreiraiei* (Melo, west on Ruta 26, Banado Medina), (Melo, Parque Rivera), *Cynolebias* sp. CXCL001 (Melo, west on Ruta 26, Banado Medina), *Cynolebias* sp. CXCL004 (Melo, west on Ruta 26, Banado Medina), (Melo, Parque Rivera), *Cynolebias* sp. SEC (Km 404.5), *Cynolebias* sp. CXCL008 (Paso Aquilas, Ruta 26, km 372), *Cynolebias affinis* (Ruta 26, km 331, State of Tacuarembo), (Ruta 5, toward Tacuarembo, km 399.5), *Cynolebias* sp. UCXT001 (Ruta 26, km 331, State of Tacuarembo), (Behind Ansina), *Cynolebias* sp. USEC-KFN 93 (First collected by the Dutch and the Spanish) (Ruta 26, km 331, State of Tacuarembo), *Cynolebias* sp. CXT003 (Behind Ansina), *Cynolebias melanoorus* (Ruta 30, behind the Rio Tacuarembo bridge), (Ruta 5, toward Tacuarembo, km 399.5), *Cynolebias* sp. CXRI002 (Ruta 30, behind the Rio Tacuarembo bridge), *Cynolebias nigripinnis* (Nueva Palmira),

Carmelo), *Cynolebias bellottii* (Carmelo, city limits in a garbage ditch). (See DKG Journal 27(4): 45-53, 1995).

De Rham, Patrick 1994 (September), Peru.

A species similar to *Rivulus urophthalmus* (Günther, 1866) was collected near Puerto Esperanza in the Alto Purus area (First ichthyological collection in this area). Another species similar to the *Rivulus urophthalmus* type was collected in the Rio Negro, Pampa de Sacramento, near Aguaytia, Rio Aguaytia (Ucayali) drainage. Both are probably new species. (See **De Rham** collections for 1979, 1980, 1981, 1991 & 1992 - all *Rivulus* from Peru).

Loiselle, Paul & Oliver Lucanus 1994 (October), Madagascar.

Pachypanchax omalonotus Nosy Bé LM-94 (Collected in Djabala River within a one kilometer radius of the village of Ampombilava), *Pachypanchax sakaramyi* Joffreville LM-94 (Collected north of Joffreville in Sakaramyi River; first collection since 1954. The Malagasy name for the fish is zoto. **Patrick De Rham** collected at the same time. Previously De Rham brought back the Ambanja strain of *Pachypanchax omalonotus*.

Van den Berg, Leen 1994, Paraguay

Cynolebias sp. PAR 94-2, (=*Cynolebias vandenbergi*?), *Cynolebias chacoensis* PAR 94-27, PAR 94-36, *Cynolebias* sp. PAR 94-38 (=*Cynolebias vandenbergi*?).

Seegers, Lothar 1994-1995 (December-January), Tanzania & Kenya.

Nothobranchius foerschi TZ 95-18 (Data incomplete).

Rosenstock, John 1995 (March), Tanzania.

Nothobranchius neumanni Manyara, (Some survived transport to Denmark), *Nothobranchius neumanni* Chipogola (None survived), *Nothobranchius neumanni* Bahi (One male survived), *Nothobranchius melanospilus* Ifakara, *Nothobranchius lourensi* Ifakara).

Etzel, Vollrad 1995 (March), Panama.

Rivulus frommi EH 16-95, EH 25-95, EH 26-95, *Rivulus monikae* EH 23-95, *Rivulus* sp. EH 24-95. (See DKG Journal 28(6): 49-59, 1996).

Watters, Brian, Trevor Wood & Johan Ippel 1995 (April), Caprivi Strip, Namibia.

Nothobranchius sp. Caprivi 95-1 (first time in the hobby), *Apocheilichthys johnstoni* Chobe River 95-2 (yellow fins edged in black) ("Nothos inhabit the Chobe River and Zambezi River floodplain area of the eastern part of the Caprivi Strip which, while part of Namibia, is sandwiched between Botswana and western Zambia" -Brian Watters).

Passaro, Guido & Wolfgang Eberl 1995 (June) USA

Lucania goodei (Myakka State Park), *Fundulus chrysotus* (Myakka State Park), *Fundulus similis* (Port Manatee), *Cyprinodon variegatus* (Port Manatee), *Fundulus diaphanus*.
